

With a clear view to the future we are working hand in hand with the highly acclaimed 'TREES 4 TREES' foundation, ensuring reforestation and economic sustainability in the local area for many years to come. Each piece of furniture manufactured is supplied with an individual identification number corresponding to the planted trees sponsored and funded by the program.

This is a wonderful individual range of distinctive dining room furniture, designed with an appearance that will mellow and improve with the passage of time. It is beautifully crafted from fruitwood, with a unique natural stone tile inlay. All components on each item have their own character, colour and grain, therefore no two pieces are the same just as nature intended. Beautiful hand-crafted metal fittings add an extra touch of style to the furniture's already superb visual appearance. The end result is a range of furniture that will retain its appeal despite changing trends, a range that comprises personality, individuality and versatility.
